Troop Goes Green

Troop 20 is following the “Leave No Trace” philosophy and is “Going Green”. What does this mean for you? Newsletters will now be sent electronically to cut down on using large amounts of paper and ink. Be on the lookout for these newsletters to arrive via e-mail about every other month. Please be sure to write down any important information included in these newsletters before deleting them. If you are having trouble opening the attachment, contact Val Huntsinger at chrisjaq@comcast.net.

Website

Check out Troop 20’s new and improved website at www.atglenscouts.org. Add it to your favorites and refer to it frequently as it will be an important “Troop to Home” communication tool. A big thanks to Greg DeShong for working on this for us!

Scouts Light Up the Night

The scouts of Troop and Pack 20 teamed up to help out with an important community event: The Annual Relay for Life! The boys showed their support by placing luminaries all around the track. The highlight of the night was when the luminaries were lit in memory of those friends and family members affected by cancer. Thanks for all of your hard work boys!

Summer Camp

The weather was perfect with warm days and cool nights! Shirley managed to get the doughnut dough to cooperate and the scouts enjoyed a tasty treat on Tuesday night! Many of the Brownsea scouts completed their requirements for Tenderfoot and had their Scoutmaster Conference. Photography and Camping with Mitch were two of the popular merit badges that the boys earned this year. All patrols worked hard and earned a well deserved steak night prepared by Keith Williams and Tom Murphy. Parents and scouts enjoyed their Friday night visit to camp and watched a skit performed by many of the troop members under the direction of Scoutmaster Mitch King. Thanks to the many leaders and parents that helped to make this a memorable trip for the boys!
